NO DIMMING YANKEE SPIRIT

Soldier in Midst of Stern Duties of
War Found Time to Play Little
Jokes on Dad.

The Yankee spirit in the midst of the carnage and travails of war is exemplified in a letter written two weeks before the signing of the armistice to Edwin C. Brandenburg, former president of the Washington board of trade, by his son, Sergt. Milton F. Brandenburg, who has been in France a year. Dark forebodings flashed through the mind of the father as he read through the epistle until he came to the last sentence. The letter reads:

"I dislike very much to have to write this letter to you, but the time has come when I must ask your advice on a matter of great importance to me, the compilation of which has caused me nights of restlessness and many a day of anxiety.

"You will understand when I tell you that many a happy home has been wrecked, and in fact even human lives upset by similar troubles, and that is why I haven't written you about it before, but now I feel that you should know at once, as it means such a great deal to me.

"Even though I am in France, I dare not communicate the state of my mind to any of my friends here, so go to you. I know I am asking a good deal of you, but your loyalty more than warrants it and I am going to ask you and expect you to tell me from deep down in your big heart if you think that Jeff will ever be as tall as Mutt?"

CHINESE IS MADE BISHOP

Ceremony, Unique in Records of the
Anglican Church, Performed
at Shanghai.

For the first time in the history of the Church of England in China, a Chinese bishop, in the person of the Venerable Archdeacon T. C. Shen, has been consecrated. The ceremony took place in the Church of Our Savior, Dixwell road, Shanghai, before a number of distinguished guests. The rites followed the ordinal of the churches of the Anglican communion.

The new bishop was presented in due form by Doctor Molony, bishop of Chekiang, and Doctor Norris, bishop of North China, who were assisted by Doctor Graves, the presiding bishop, in the laying of the hands. Bishops Roots and Huntington of the American church, Bishop Iliff of the Church of England and Bishop White of the Canadian church. All these bishops are also bishops of the Chung Hua Sheng Kung Hui—Canton (China) Times.

Where Women Rule.

A little village exists on the Cape of Shima, in Japan, the name of which in Japanese means "the Settlement of Nymphs." Woman in this village is the predominant partner. The chief industry is pearl fishing, and it is the women who are the fishers. The men stay at home and do the housework. From the age of four girls are taught to dive, and the craft has always been jealously kept in the women's hands.

Recently some of the men became discontented and started to practice diving with the idea of themselves becoming pearl fishers. The women, dreading the intensified competition, ordered the men to discontinue their diving, and as the men refused a boycott was declared against them. The sexes have been at war ever since, and finally the women expelled all the men from their homes and undertook in their clumsy, inept fashion to do the housework for themselves. The men have petitioned parliament for their rights.

Dreadful Malady.

"Seasickness," said Lieut. Sydnor Harrison, the novelist, "is a dreadful thing. It will unman even the doughboy."

"A doughboy on a transport bound for France, was seasick. His corporal, to get him out on deck in the fresh air, roused him from his seasick stupor one morning and said:

"Come on, Jack! Up with you! We've been torpedoed and the ship'll sink in ten minutes."

"Ten minutes?" groaned the doughboy. Then he added with a great gulp:

"Can't you hurry her on a bit, corp?"

Treasury Department is watching with a keen eye every piece of legislation which has to do with government finance, and nothing gets its approval which would have any tendency to make anything more desirable as an investment than the Liberty Bonds.

BUSINESS ACUMEN PROMPTS HOLDING TO LIBERTY BONDS

VALUE AS COLLATERAL IS
GREATER THAN ANY KNOWN
TO FINANCE.

WATCH OUT FOR SHARPERS

Beware of Men Who Offer "Some-
thing Better" in Exchange,
Financier Advises.

The value as collateral of United States Liberty Bonds, according to the president of one of the largest St. Louis national banks, is greater than any evidence of wealth known to finance.

Next to gold coin and specie they represent the most stable medium of exchange within the power of our government to issue, and there is nothing on which banks the world over would rather lend money.

This is pointed out as one of the numerous material reasons for holding tight to the bonds when once they are purchased. The patriotic and sentimental reasons for not disposing of them are quite as strong, but the arguments in that field are less concrete and more difficult to present in language than those dealing with the investment.

Never Good Reason to Sell.

There is never a good reason for selling one's Liberty Bonds. The main cause for doing so in 98 per cent of cases is to get money. It is easily possible to get the money and still retain title to your bonds, as any bank in your city will lend you close to their market value, and for a long period of time at inside interest rates. Then you are still drawing your bond interest, so that if you pay the bank 6 per cent your net rate is only 1 1/2 per cent with a 4 1/4 per cent bond as collateral.

Since the first Liberty Bonds reached the hands of the public they have been the objectives of an endless class of sharpers and unscrupulous business men who have schemed untiringly to get the holdings of their less keen neighbors. These gentlemen come with propositions "just as safe and yielding far greater returns." Against such proposals all holders of United States bonds, large and small, are doubly warned.

There is nothing nearly as safe and yielding better returns which anyone would want to dispose of. Russell Sage, than whom no financier has ever had a better understanding of investments, once remarked that there was no such thing as a safe 5 per cent investment. He died leaving a marketable estate of upward of \$75,000,000, so that his opinion is worth considering.

The 4 per cent or 4 1/4 per cent return from your Liberty Bonds will continue to come to you as regularly as the succession of dawn and darkness through your life and the duration of the bond, and to your descendants after you. And just as sure as the United States government endures you will receive the principal in full at the expiration of the loan period. It is impossible to conceive, therefore, of a more entirely safe and comfortable investment to hold always than Liberty Bonds.

A Permanent Investment.

Thus far no one has been able to come forward with a logical argument against Liberty Bonds as a permanent investment. The only circumstance presenting the semblance of soundness is that of the persons who point out the small interest return, in view of income on other investments of a standard variety. Changing conditions, however, rapidly demolish and upset standards, and with a return to normal times and plentiful money the 4 1/4 per cent rate will be considered large.

It takes no effort of memory to recall the time when banks were loaning vast sums at 4 per cent, and even a shade under that figure. Then municipal bonds bearing 4 per cent were selling as high as \$102 to \$106, the premium bringing the interest basis well under 3 1/2 per cent. On a basis of their market price, railroad stocks and other standard securities were yielding little if any better than 4 to 5 per cent.

Government bonds brought enormous premiums, especially those bearing 3 per cent and better. Certainly the credit of the United States government, and the value back of it now, are immeasurably greater than at any preceding period in our history, so that it is safe to predict that those who hold on to their Liberty Bonds will in after-war years realize substantial profits on the holdings should they feel disposed to sell when peace has been restored.

WHAT A SAILOR COSTS.

The cost of the United States Navy per man per day during the first six months of the fiscal year 1918 varied from 49 cents on the larger types of vessels to 53 cents on the smaller types. A \$50 Liberty Bond will keep a sailor for 108 days on the larger vessels and for 96 days on the smaller types.

SAY, you'll have a streak of smokeluck that'll put pep-in-your-smokemotor, all right, if you'll ring-in with a jimmy pipe or cigarette papers and nail some Prince Albert for packing!

Just between ourselves, you never will wise-up to high-spot-smoke-joy until you can call a pipe by its first name, then, to hit the peak-of-pleasure you land square on that two-fisted-man-tobacco, Prince Albert!

Well, sir, you'll be so all-fired happy you'll want to get a photograph of yourself breezing up the pike with your smokethrottle wide open! Talk about smoke-sport! Quality makes Prince Albert so

appealing all along the smoke line. Men who never before could smoke a pipe and men who've smoked pipes for years all testify to the delight it hands out! P. A. can't bite or parch! Both are cut out by our exclusive patented process!

Right now while the going's good you get out your old jimmy pipe or the papers and land on some P. A. for what ails your particular smokeappetite!

You buy Prince Albert everywhere tobacco is sold. Topsy red bags, tidy red tins, handsome round and half pound tin humidors—and that classy, practical pound crystal glass humidors with sponge moistener top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

CANDIDATES MUST "DOLL UP"

Will Have to Look Their Prettiest if
They Expect to Find Favor With
Woman Voters.

It is not necessary to go away from home to find either the latest or best, regardless of what is wanted. Consider eyebrow arching, for instance. A local beauty salon announces to the public that it does eyebrow arching, and explains that this operation "gives the eyes a deep, soulful expression with everlasting charm." Eyebrow arching advice for woman electors is more or less superfluous. It is to the men, and more especially to the men who aspire to public office, that this beauty hint is directed.

Throughout the country women are getting the ballot on equal terms with men. Women cannot vote in Indiana, but they are going to have that privilege before long. So many women have been enfranchised that they now hold the balance of power in this nation. So the woman vote will be more and more a real political problem to the candidate.

Some electors care little for the personal appearance of candidates, but most of them prefer a man of character, one who at least is presentable. Candidates in the future will have to bear this in mind. It will be well, in order to match rival candidates, for each to have a good tailor and an advisory committee on the proper shade of cravats. Immaculate linen will have to be in every candidate's platform. The high arched eyebrow will be even more essential to candidates than to the average woman. Doubtless those who have political aspirations will begin early, because eyebrow training takes time.—Indianapolis News.

SAID ICE CREAM "BURNED"

Think of It, French Kiddies Had to Be
Coaxed to Partake of Strange
Delicacy!

Striking proof of the well-known fact that extreme heat and extreme cold have the same physical properties was recently furnished by "Jugger" Crane, the scientist-philosopher of Company B, —th engineers, when he fed some American ice cream to a group of French children, says the Spiker.

The inhabitants of the French farm-houses near the camp had never seen any ice cream until "Jugger" took them over a mess kit full of the great American delicacy.

The children gathered around expectantly. The first one took a spoonful and at once began to weep and declare that the strange food was hot.

The others who had watched rather horror stricken the fate of the first became convinced that it was some sort of white fire and would have nothing to do with the cream.

The mother had to eat virtually all the cream in order to induce them to believe it was cold rather than hot and that when not taken too fast, was good to eat. Eventually, the children ate the last of the dish.

But that partook of it gingerly, evidently greatly mystified that anything which first seemed hot, then cold, could be good to eat.
